## PROFILE

A Informatics graduate from Universitas Teknokrat Indonesia with expertise in computer science. I have a particular interest in the IT world. Additionally, I am interested in 3D modeling, graphic design, mobile UI/UX, and mentoring. I have organizational experience that has helped develop my character, especially in leadership skills, professional team collaboration, and project management..

## EDUCATION

**Universitas Teknokrat Indonesia** **2020 - 2024**

Bachelor of Informatics, GPA 3.70/4.00

I successfully graduated and completed my university education on time, earning my degree in July 2024 after four years of study. During my academic journey, I achieved first place in a mobile development competition at the Teknokrat Academic Expo 2023. Furthermore, I contributed to the Metaverse development team at Universitas Teknokrat Indonesia for over a year.
